Integrity Error -52010
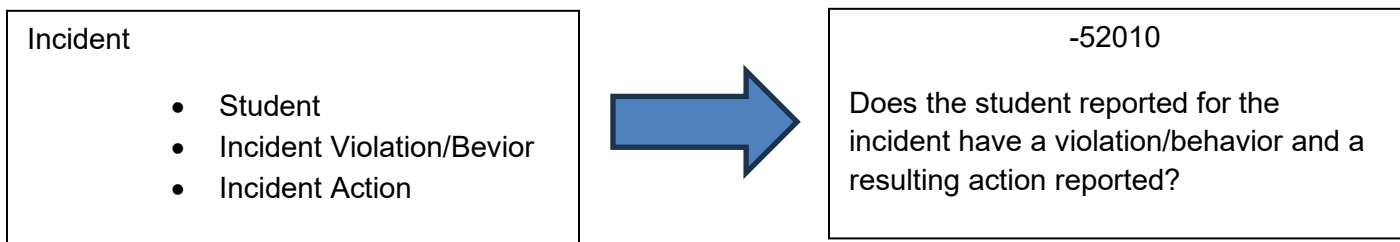

Error Message:

Incident must have a Violation and Action.

Description:

Incident is missing either Violation or Action data.

Example:

Incident		-52010
• Student • Incident Violation/Bevior • Incident Action	→	Does the student reported for the incident have a violation/behavior and a resulting action reported?

Troubleshooting:

- Violations and Behaviors are terms used interchangeably in the EdFi model; both terms are used in AzEDS error descriptions and reports.
- Validate violations/behaviors and actions are reported for the discipline incident using the DISC10 report in the AzEDS Portal.
- Ensure that every student in the incident reported has at least one violation/behavior and resulting associated Action.
- Ensure that [BehaviorDescriptiorID] is reported in both the [edfi.DisciplineAction] and [Edfi.StudentDisciplineIncidentBehaviorAssociation] tables. Contact your student information system vendor for more information.
- Once corrected, allow integrity to run overnight to see if the discipline incident is passing on the INTEG55 report.

A listing of all Integrity Rules can be found on the AzEDS web page.
