³ Table 4 captures the school districts and charter schools that students attended immediately prior to enrolling in the ESA program. However, this information is only reported from fiscal year 2017 through fiscal year 2024—Quarter 3. It does not cover the period from fiscal years 2011 through 2016, when the ESA program was first implemented. In fiscal year 2017, the Arizona Department of Education (ADE) implemented a new student information system (SIS). Because of the risks of relying on student level data from 8 fiscal years earlier that were migrated from another SIS, we chose only to report on data beginning in fiscal year 2017 for the purposes of this report.

⁵ Marketplace is 1 of 4 options that ESA Holders have to spend their ESA funds. Currently, the Arizona ESA program is able to capture spending on the ClassWallet Marketplace on an item level. However, ClassWallet does not capture ESA Account Holders' spending on an item level when they spend their funds through "Pay Vendor", seek reimbursements, or use a ClassWallet-issued debit card. When ESA Holders spend their ESA funds through these 3 options, ClassWallet currently only captures data on an order level. For this reason, Marketplace spending, which can be captured on an item level, is separated from spending through the other options.

⁶ Although items purchased by ESA Holders through the ClassWallet Marketplace were captured by ClassWallet on an item level, when there was more than 1 item on an order, and the items on the order were for different expense categories, the expense categories were not captured on an item level. Instead, each item on an order reflected all the expense categories captured by the order. As a result, we captured these items as "multiple categories".

⁷ When ESA Holders purchased items through ClassWallet’s “Pay Vendor”, used a ClassWallet debit card, or sought reimbursement from their ESAs for items they purchased with their private funds, these items were not captured on an item level by ClassWallet’s system, but instead were captured on an order basis. For this reason, Table 10 captures orders and not items. Orders may have included multiple items.

⁸ Items purchased by ESA Holders through the ClassWallet “Pay Vendor” platform or for reimbursement from their ESAs were captured by ClassWallet on an order level. When there was more than 1 item on an order, and the items on the order were for different expense categories, the expense categories were not captured on an item level. As a result, we captured these items as “multiple categories”.
