Health and Nutrition Services Arizona Department of Education

Today's webinar will be facilitated by Jennifer Blankenship. Jennifer brings over 18 years of experience to Child Nutrition. She is excited to assist the field with an easy transition when beginning, or updating programs to improve the health and wellness of Arizona's children.

Jennifer has helped lead the training efforts in Administrative Review preparation and food safety.

Welcome to today's webinar!

This training was developed by the Arizona Department of Education (ADE) Health and Nutrition Services Division (HNS). This training is intended for School Food Authorities (SFAs) who collect household applications. The information in this training is subject to change. Attendees are encouraged to access professional development materials directly from the training library to prevent the use of outdated content.

Disclaimer

SFAs with all sites on an active Provision 2/3 non-base year or Community Eligibility Provision cycle, are prohibited from collecting NSLP applications and do not conduct verification activities.

If you are an SFA with sites only on a Special Provision Option as explained above or an RCCI, this webinar does not apply to you. Please log off and attend the webinar on January 23.

Intended Audience

This training is intended for **School Food Authorities** (SFAs) who collect household applications. All regulations are specific to operating the National School Lunch Program (NSLP) under the direction of ADE.

Objectives

At the end of this training, attendees should be able to:

- understand the USDA requirements for ADE's oversight of the verification process;
- understand how to submit the Verification Summary Report (VSR) through ADEConnect.

SECTION OF Overview of Verification

What is Verification?

Verification is the process of **confirming free and reduced-price** meal eligibility. Verification is only required when eligibility is determined through the **household application** process, not through direct certification (DC).

Please note: All SFAs that collected any household applications in SY 24-25 are required to conduct verification on those applications and complete the VSR. This includes SFAs that have some sites operating regular NSLP while other sites within the SFA are operating on a Special Assistance Provision cycle. Your report will be mixed with both VSR field requirements!

Household
Applications are
approved at face
value

USDA requires a small percentage of applications to be verified

Documentation is requested from the selected households to verify that the information on the application is accurately reported

Verification Phases

THE FOUR PHASES

There are four phases of verification. These phases are:

- Phase 1: Prepare
- Phase 2: Calculate and Select
- Phase 3: Verify
- Phase 4: Report

PHASE 1: PREPARE

In this phase, organize all approved applications.

PHASE 2: CALCULATE AND SELECT

In this phase, determine how many applications will be verified and select the applications using an appropriate sampling method.

PHASE 3: VERIFY

In this phase, conduct direct verification on the selected applications in CNP Direct Verification, and contact the households that were not directly verified.

PHASE 4: REPORT

In this phase, log into ADEConnect to submit the Verification Summary Report (VSR) in CNP Verification Reporting.

Verification Timeline

SEPTEMBER 1

Begin Phase 1

OCTOBER 1

Begin Phases 2 & 3

NOVEMBER 15

- Phase 3 ends.
- Phase 4 begins.

FEBRUARY 1

Phase 4 deadline.

Reporting Requirements

Each year, SFAs must report:

- their enrollment data as of October 31; and,
- the number of applications selected for verification and the results of verification activities.

Any SFA that does not submit their report by February 1 will have their reimbursements placed on hold until the report is submitted.

Last Steps of Verification

Congratulations! You are almost done with the verification process as the last step is reporting your SFA data and the applications that were selected for verification.

- Think of the VSR as telling HNS your verification story.
- We hope many of you can submit your VSR today. If not, that's okay!

Your assigned HNS specialist can provide you with technical assistance after the webinar if you need additional help.

SECTION 4
Common
Reporting
Errors

Common Error #1

SAMPLING METHOD

- Remember, you must select enough applications based on the sampling method required/selected. If you do not select enough applications, an error message may occur regarding underreporting, not using error-prone, or using a method you were not qualified to use.
- If the wrong sampling method was used, the incorrect number of applications required for verification was most likely selected.
- If you did not verify enough applications based on the required sample size, HNS will not approve your report and you will be required to conduct verification for the correct number of applications that were required to be verified.
 - If this issue occurs, you must report that verification was completed after November 15th on step 11 of the VSR.
- If you selected too many applications based on the required sample size, report the total number of applications and students you verified.

Common Error #2

CONDUCTING DIRECT VERIFICATION

- It has been found that SFAs are reporting that they have conducted direct verification, but search results show they have not.
- It is required that SFAs attempt to verify each application through CNP Direct Verification prior to reaching out to the household.
- If the SFA did not conduct direct verification, this must be indicated by checking the box on step 13 of the VSR.
