

RELEASE NOTES

AzEDS REST API 11.0

Version 11.0 of the REST API is available for SIS vendors in the sandbox environment using the following URLs:

Admin Portal: <https://sandbox-rest-api-admin-r11.azeds.azed.gov/>

Swagger UI: <https://sandbox-rest-ui-r11.azeds.azed.gov/>

REST API: <https://sandbox-rest-api-r11.azeds.azed.gov/>

```
"API version": "7.3",
"informationalVersion": "7.3",
"suite": "3",
"build": "1.0.0.0",
"dataModels": [
  {
    "name": "Ed-Fi",
    "version": "5.2.0",
    "informationalVersion": "The Ed-Fi Data Model 5.2"
  },
]
```

The current EDFI data model is v5.2, and please refer to EDFI v5.2 for data model changes.

New to API 11.0

1. Enhanced error messaging. Please refer to 5.2 data model changes and 7.x release notes [here](#).
2. Add relationship descriptor for contact relationship:
AzEIP Service Coordinator
3. Add responsibility descriptor for
EducationOrganizationResponsibilityAssociation:
Resident School
4. EducationOrganizationResponsibilityAssociation added to Enrollment Tab for non-resident enrolled students (Charter schools, Open Enrollment and Type 03 HS Student)

5. Student Section Association has DualCredit (AZ customization) replaced by DualCreditIndicator (new EdFi standard)

6. [Pending Approval by ADE Data Governance Change Review Board] EducationOrganizationId used for student demographic data will be changed from School Id to the **Submitting District Id**. (e.g. If Mesa Unified District submits data for a student at their school, a private paid tuition-out school and/or a CTED satellite it will require that they use Mesa's Entity Id and will need only one record for all three enrollment possibilities.)
